Ole Connect's application way very impressive. They implemented lots of features and they seem to have put a lot of thought into the functionality details. The following are a few extra ideas we suggested as customers.

1. Notification email when people are interested in your project?
2. Subscribe to certain fields to get notifications?
3. Adding a field for school? Filter by school.
4. Web app?
5. On user profile, a list of projects you're interested in
6. Allow users to unmark "interested"
