Product Meeting Notes and Customer Feedback

- Questions:
  - Will storage build up with all photos uploaded?
    - No it is encoded with bit map
  - How to handle pictures of nothing/ useless selfies?
- Suggestions:
  - Can we add comments to pictures?
  - Numerical waiting time?
  - Rating buttons
  - Can we display a map instead of list?
  - Include flags of wait time? Or list with colors of corresponding wait time?
  - Distribution of crowds like when you google a restaurant
    - Based off how many pictures uploaded in time slots
  - Graph of avg wait time for each hour of the day
- Other notes:
  - The customer felt that the UI was intuitive and easy to read.
